Integrated dialer

Key features

We understand the evolving debt collection landscape, which is why we have packed CogentCollect with features that help modern-day organizations stay ahead of the curve.

Advanced reporting and analytics: Leverage sophisticated reporting and analytics tools to gain actionable insights and drive informed decision-making.

Credit card and credit bureau interface: Simplify credit transactions and integrate seamlessly with major credit bureaus.

Inbuilt regulatory alerts: Stay compliant with automatic FD CPA, CFPB and Reg-F alerts built into the system.

Scalable: Faster integration with existing systems and enables better automation

Payment plan wizard: Create and record payment plan arrangements effortlessly.

Interest calculations and final payment calculations: Automatically calculate interest and final payments based on payment due dates and interest rates.

Internal document manager: Automate document production and manage all your documents efficiently.

Integrated dialer controls: Utilize integrated dialer controls for seamless communication.

Automatic linking of claims upon import: Link claims automatically upon import for streamlined processing.

Purchased portfolio/claims tracking: Track purchased portfolios and claims efficiently to maximize recovery.

Performance tracking to predict business outcomes: Monitor performance metrics to predict and enhance business outcomes.

Integration to mail systems: Seamlessly integrate with mail systems for efficient communication and correspondence.

Major benefits

Increase and maximize collections: Enforce the right collection strategy and methods to maximize collection while minimizing risks.

Optimize operations: Streamline business processes and deliver end-to-end automation.

Leverage remote working: Eliminates the headaches, costs, and limitations of on-premises deployments.

Better manage compliance: Real-time warnings, and alerts coupled with intelligent compliance engine enables organizations to prevent human error and compliance breaches.

Open architecture and future scalability: Open to the integration with leading third-party software vendors allowing faster integration with existing systems and enabling better automation.

Quick onboarding: Helps reducing the implementation costs.

Gain competitive advantage: Ready to use solution with rapid deployment time. Built by a team of collection executives and expert technologists.

Unlock CogentCollect's full potential

Our comprehensive services ensure organizations reap the true benefits of the solution, while our managed services enhance and debt collection processes. Our expert team supports seamless implementation, integration, and ongoing management to maximize your ROI.

Implementation and support services

Product implementation, integration, and customization: Seamlessly integrate and customize CogentCollect to fit your unique business needs for optimal performance.

Legacy system upgrade and migration: Smoothly transition from outdated systems to CogentCollect with minimal disruption.

Product roadmap: Stay ahead with strategic planning and updates to continuously improve your debt management capabilities.

Training and onboarding: Empower your team with comprehensive training and onboarding for efficient use of CogentCollect.

Support models: Seamlessly integrate and customize CogentCollect to fit your unique business needs for optimal performance.

Managed services

Forms & workflow development: Customize forms and workflows to streamline your processes.

Cogent operations: Enhance day-to-day operations with expert oversight and management.

EDI/interface management: Ensure seamless electronic data interchange and interface management.

Database management and administration: Ensure robust and efficient database management with expert administration services.

Security assessment: Protect your sensitive data with thorough security evaluations and proactive measures.
